

Tasking Memorandum No. 00-240

Memorandum For Cdrs DCMDs, and CAOs

Subject: Blanket Modification for Enhancement of AFMC Automated Systems for Contract Depot Maintenance Activities

Date: June 2, 2000

Target Audience: DCMC DACOs and ACOs.

New Information/Guidance/Tools:

- This is to advise you that an unilateral blanket modification (Attachment 1) has been processed, effective June 2, 2000, which changes the input requirements for two automated systems used by Air Force Material Command (AFMC) Air Material Centers to monitor repairs at contractor facilities. The GO09 system tracks the progress made on the repairable and GFM usage. The D035A system is used to requisition items. AFMC is developing an interface to link these systems together as part of its Contractor Repair Enhancement Program. The anticipated G009/D035A interface date is July 1, 2000.
- Currently, the contractor is required to report a repair transaction no later than two working days from the time an End-Item transaction occurs. This modification will require the contractor to report End-Item transactions daily.
- The contract modification covers approximately 1,500 contracts (Attachment 2). The change order is issued with the understanding that it does not result in any change to the contractual requirements that would warrant a change in contract price and/or a change in delivery schedule or time of performance.

Requirements:

- ACOs must: (1) provide a copy of the change order to their affected contractors and Procuring Contracting Officers (PCOs) and if not accepted by the contractor then; (2) obtain a proposal from contractors requesting an equitable adjustment within 30 calendar days from the date of the request; (3) obtain funding and negotiation support from the Headquarters, AFMC point of contact and (4) negotiate and execute the supplemental agreement by September 30, 2000.
- The Headquarters, AFMC point of contact to obtain negotiation support and funding for the negotiation of any equitable adjustment is Mr. Eddie Robinson at DSN 787-5969 or (937) 257-5969 commercial. General questions about the change order may be addressed to Mr. David Wright at DSN 787-4155 or (937) 257-4155 commercial.
